

April 24, 2009

Dear colleagues,

Greetings from ICSPAH!

It was nice to meet so many colleagues in Tampa Florida during the AAHPERD annual conference. Thank you all for coming to the ICSPAH general assembly and social, and I hope you had enjoyed meeting with old friends and making some new friends.

A Special thank you goes to Dr. James Zhang at University of Florida, who generously sponsored the ICSPAH social and activities this year.

With your devotion and support, we were able to achieve many goals during the past year. As a young organization, ICSPAH is growing healthy and the annual meeting was well attended this year in Tampa Florida. We had a total of 51 participants from different institutions in the US, Hong Kong, and Mainland China. I am confident that through strengthening collaborative research and education, we will be able to facilitate professional growth and development among our members, and promote healthy and physically active lifestyles.

I would like to take this opportunity to thank the executive committee members to work with me as a team, and thank you all for your support to ICSPAH during the past year. I encourage you to continue to be actively involved and support our own organization.

Please let me introduce the newly elected President Dr. Ping Xiang from Texas A&M University, and two new members of the executive committee: Dr. Guoyuan Huang from University of Southern Indiana and Dr. Zan Gao from University of Utah. The executive committee will serve ICSPAH under the leadership of Dr. Ping Xiang. I will continue to serve on the executive committee as the past president and support ICSPAH as a member.

Thank you again for your support and I look forward to seeing your active involvement with ICSPAH in the coming years.

Hongwei Guan, President (2008-2009)

ICSPAH
